

Caregivers Needed

Are you a compassionate individual seeking a rewarding, flexible, high-demand career, or are you aiming to kickstart your healthcare career while pursuing further education? If so, we can assist you in getting certified as a paid, in-home caregiver and connected with clients.

Why the need?

Ohio is facing a shortage of direct care workers, resulting in numerous older adults and individuals with disabilities going without essential services that enable them to maintain independence in their homes. In fact, Council on Aging has over 50 clients who are on waiting lists for caregivers.

How can you become an in-home caregiver?

We can assist those interested in becoming an in-home caregiver by coaching them through the Ohio Department of Aging (ODA) application process, providing training resources, and matching providers with our clients*. We operate in Butler, Clermont, Clinton, Hamilton and Warren counties. We can connect you with Ohio Department of Medicaid (ODM) for other provider options and/or other agencies in Ohio outside our service area as needed.

Position requirements

- 18 years of age or older
- Pass criminal background check
- Complete ODA provider application

Full- and part-time positions available.

No experience required!

Training resources provided!

For more information on becoming a paid in-home caregiver, contact Hannah Hartig, LISW-S, at hhartig@help4seniors.org or (513) 526-2268

*Spouses, parents, power of attorneys are not eligible unless they meet extraordinary care requirements.
